

Table-Heavy Sample

License: CC0-1.0. Synthetic sample generated for the Carrel public beta demo library.

Method	Strength	Weakness
Rereading	Fast to start	Weak retrieval practice
Flashcards	Strong recall loop	Can create backlog pressure
Source-grounded Q&A	Explains with citations	Needs reliable evidence links

The table shows why Carrel combines reading, grounded answers, anchors, and spaced review.

Each method solves one part of the learning loop but becomes stronger when connected to the others.
